

# ONE VISION

THE  
CAMPAIGN  
FOR  
DOYLESTOWN  
HEALTH

Now in the public phase of a \$75 million comprehensive campaign, Doylestown Health is ready to begin a bold new chapter as we approach our second century of healthcare delivery.

## CAMPAIGN MILESTONES

# LEADING WITH HEART: WORLD-CLASS CARDIOVASCULAR CARE WITHIN REACH

Slated for completion in 2019, the new Center for Heart and Vascular Care will renew Doylestown Health's commitment to its pioneering model of heart care. The new facility will expand our ability to meet the needs of patients throughout the region, harnessing decades of leadership in heart care.

The cardiovascular-focused renovation and expansion will provide 100,000 square feet of space, creating the optimal physical environment for rapid consultation between cardiothoracic and vascular surgeons, electrophysiologists, and interventional and medical cardiologists. The expanded footprint will allow multidisciplinary care teams to reach the next level of collaboration and innovation which are hallmarks of care at Doylestown Health.

In addition to housing a comprehensive cardiovascular program on the first two floors, the third floor of the Center for Heart and Vascular Care is designed to accommodate an innovative Center for Critical Care Medicine serving as a new home for the hospital's Intensive Care Unit.

Our private patient rooms are designed to be universal, meaning patients will remain in the same room as their healing progresses—from intensive care to discharge.

The three-story, light-filled Atrium promotes a heart-healthy lifestyle with space to walk, relax and reflect.

## Project Highlights

- 100,000 square feet of clinical and patient space
- 30 new private patient CVICU/IVU rooms with “zoned” areas designated for clinicians, patients and families
- A state-of-the-art Endovascular Hybrid Operating Suite integrates the latest technology and techniques in minimally invasive surgery
- 20 private bays will create distinct areas for pre-procedural care and post-op recovery, enhancing patient comfort and privacy
- New clinical space will accommodate upgraded equipment and advanced diagnostic and imaging technologies
- The configuration of nursing stations and other clinical functions throughout will dramatically reduce ambient noise
- A new Center for Critical Care Medicine slated for the third floor will house 30 private universal ICU/IMU beds
- The new Café will offer heart-healthy menu options and cooking demonstrations
- Natural light, soothing colors and signature artwork will create a more relaxing environment
- Elegantly appointed family and visitor waiting areas will provide comfortable spaces to gather in support of loved ones
- The new facility will connect seamlessly with the existing Doylestown Hospital

# PINE RUN COMMUNITY CENTER:

## CREATING A “HUB” FOR VIBRANT LIVING

As the newest addition to the Pine Run landscape, the Community Center—affectionately known as the “Hub”—is the culmination of a vision for a signature space for Villagers to gather for fellowship, friendship and fitness.

Designed to celebrate and connect to the natural beauty of the campus, the Community Center will add another exciting dimension to gracious living at Pine Run and serve as the focal point for social life for active Villagers.

Residents will enjoy myriad opportunities to nurture the mind, body and spirit. “This project is a focal point of our campus renewal plan and we are grateful for the support we’ve received to bring this to reality. Everyone is so excited,” says Maria Santangelo, Executive Director. “We are thrilled that the first phase of this incredible facility is now open. Vitality and wellness are a huge part of the lifestyle for Villagers at Pine Run and the Community Center will enhance the quality of life for all of our residents and make our incredible community even more special.”

“This project is a focal point of our campus renewal plan and we are grateful for the support we’ve received to bring this to reality. Everyone is so excited.”

### Project Highlights

Situated in the heart of Pine Run’s picturesque 43-acre campus, **PHASE ONE** of the new 36,000-square-foot Community Center includes:

- A** New dining venues, full-service bar, Grill & Pub, and outdoor deck
- B** An inviting living area featuring a fireplace and vaulted ceiling
- C** Multiple activity galleries, Library, full-service salon and country store

**PHASE TWO** of the Community Center which will open in Spring 2019 includes:

- D** Fitness Center
- E** Aquatic Center featuring an indoor pool
- F** Auditorium and stage

## New Community Center Enhances Life at Pine Run

---

The Villagers at Doylestown Health's Pine Run Retirement Community are enjoying the first phase of a dazzling, new Community Center and the many opportunities they find there for food, fun, entertainment and a healthy lifestyle.

### Dynamic Social Scene

---

"Our Villagers love camaraderie and meeting new people," says Maria Santangelo. "Our new Grill & Pub opens onto an outdoor deck overlooking the pond and also into a gallery where Villagers can enjoy billiards, cards, book discussions, cocktails, conversation and much more."

If the day is free to savor, Villagers can pick up a cappuccino and relax with a book or newspaper on the deck or in the nearby Werrett Library.

Other amenities include a full-service salon and country store. And, when Phase Two opens, Villagers will enjoy a state-of-the-art fitness center, indoor pool and auditorium.

### Culture and Classes

---

Music lovers like Bill and Mary Lee Leiser are especially looking forward to the new auditorium opening in Phase Two. "We enjoy weekly performances by talented local musicians, and I feel certain that the new auditorium and modern sound system will please both the audience and performers," says Bill. In fact, the Liesers are so passionate about this project, they made a contribution to the One Vision Campaign that will be recognized in the lobby entrance of the new auditorium.

Pine Run's life enrichment team is eagerly anticipating events in the new space that include a wide range of curated events that

jazz up each season. Calendars will be filled with even more of the cultural and educational experiences the Villagers enjoy.

### Freedom of Choice

---

Pine Run Villager Mary Terpening appreciates the multiple new venues for eating and the expanded menu options available with the opening of the new Grill & Pub, along with the formal dining area, which offers a full-service bar.

"We look out on a panorama of spectacular views of the pond and deck from each dining venue," describes Mary, adding, "It's gorgeous, and now that the grill is open all day you can have a snack or full meal whenever you want."

### Feeding the Soul

---

"The new Grill & Pub is very popular," says David Fogel, Senior Director of Dining Services. "Here, Villagers find everything from healthy entrees, custom sandwiches, fresh pastries and seafood to gourmet burgers and cheese steaks."

"For our more health-conscious Villagers, our new Fit Program will feature a Healthy Fit entrée with fresh vegetables and an accompanying nutrition information card," David explains. "We've also added environmentally friendly takeout containers, replacing non recyclables with a sustainable product, along with a specially designed reusable carry bag."

## Doylestown Health looks forward to celebrating our 100th anniversary in 2023.

The One Vision Campaign lays the groundwork for our second century. To honor our centennial, we are growing to meet the expanded health and wellness needs of our community.

Transformational renovation and expansion across the Doylestown Health campuses are underway. Campaign projects include:

- A new Center for Heart and Vascular Care
- Surgical Suite renovation and expansion
- A new Outpatient Pavilion featuring an Ambulatory Surgery Center
- Main entrance renovations, improved wayfinding and space dedicated to community education
- A new Community Center at Pine Run Retirement Community

To learn more about how your gift can make a meaningful difference in the lives of countless patients and families for generations to come, call **215.345.2009** or visit [DoylestownHealthFoundation.org](http://DoylestownHealthFoundation.org).
