# FRIENDS OF THE HEART INSTITUTE

♡ 2019 ♡

Through membership, donations, and fundraising events, Friends of the Heart Institute is committed to ensuring patients and their loved ones have access to the very best heart and vascular care close to home.

Friends of the Heart Institute

Over the last four decades, Friends of the Heart Institute has raised funds to support the dynamic growth of cardiovascular programs, services, and facilities at Doylestown Health. We have grown from the \$100 Heart Club founded in 1978 to **Friends of the Heart Institute** with over 400 members devoted to safeguarding the future of heart and vascular care at Doylestown Health. In addition to supporting the Richard A. Reif Heart Institute, Friends also remains steadfast in our support of health and well-being by funding community events such as *Walk With A Doc*, a nationally-recognized exercise program. Our support of the Woodall Education Fund enables the Heart Institute's multidisciplinary care team access to continuing education and training to stay at the forefront of advances in cardiovascular care.

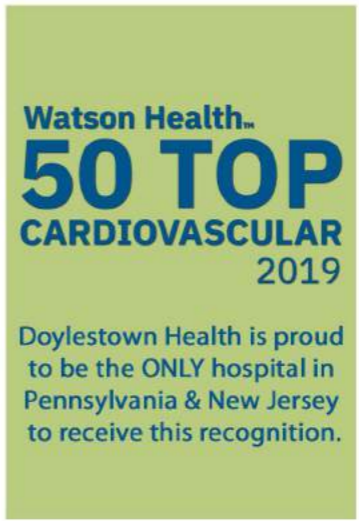

Doylestown Hospital was recently recognized as one of the nation's **50 Top Cardiovascular Hospitals** by IBM Watson Health, and it is the only hospital in both Pennsylvania and New Jersey to receive this honor. This distinction and recent recognition by **US News & World Report** as high performing in the areas of Aortic Valve Surgery, Heart Bypass Surgery and Heart Failure are additional examples of the superior clinical care delivered by the highly trained cardiologists and surgeons at Doylestown Health.

Distinction is not exclusive to our clinical care team. Friends of the Heart Institute also recently received national recognition from the American Hospital Association for our success as an all-volunteer organization dedicated to fundraising.

With your strong support, Friends will continue to direct contributions to transformative capital improvements and also support community initiatives and education. Together we can help Doylestown Health continue to provide excellent care and remain one of the best heart and vascular programs in the nation.
